13

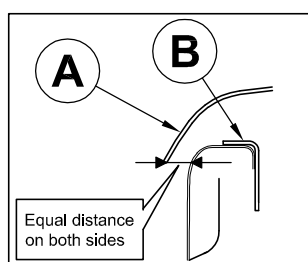

Adjust latch bracket to align tailgate

14

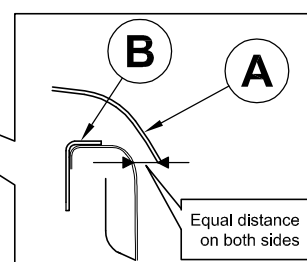

Adjust the placement of the mounting brackets (part B) to ensure clearance between lid, drip rail and vehicle.

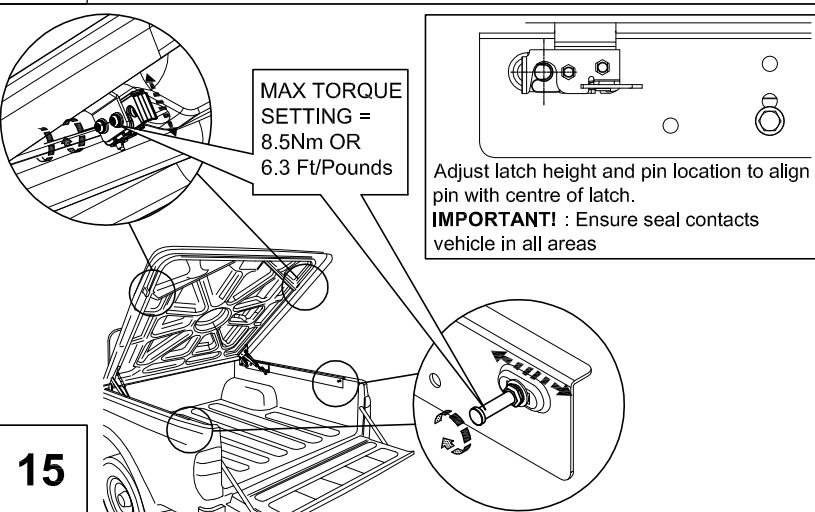

Equal distance on both sides

Adjust the placement of the mounting brackets (part B) to ensure even spacing between lid & vehicle along the sides and back corners.

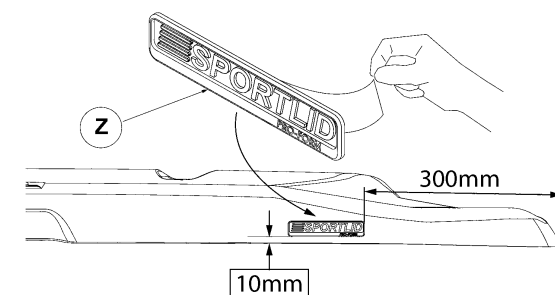

Equal distance on both sides

15

MAX TORQUE SETTING = 8.5Nm OR 6.3 Ft/Pounds

Adjust latch height and pin location to align pin with centre of latch.  
**IMPORTANT!** : Ensure seal contacts vehicle in all areas

16

After required clearances and alignment is achieved, tighten all bolts to torque settings stated.

Retain these instructions for reference.
